

The free Airbnb Swap your home

Problem

Traditional accommodation is:

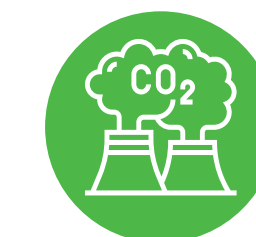

Expensive

70% of europeans between 25 and 45 want to travel more, but can't due to economic limitations. Traditional accommodation is too expensive, representing 65% of a total trip cost.

Outdated

Traditional accommodation does not fit the desired travel patterns of the new generations. We want to travel more and more often.

Unsustainable

Environmental sustainability in the accommodation business is no longer “nice to have”; it’s a must-have. Over 1% of all CO2 global emissions come from hotels.

Solution

A web platform where users can swap their home and travel **without accommodation costs**

Free Accommodation

Enjoy free accommodation anywhere. Unlock a network of homes all around the world. Travel as much as you want, with no extra costs.

New Travel Patterns

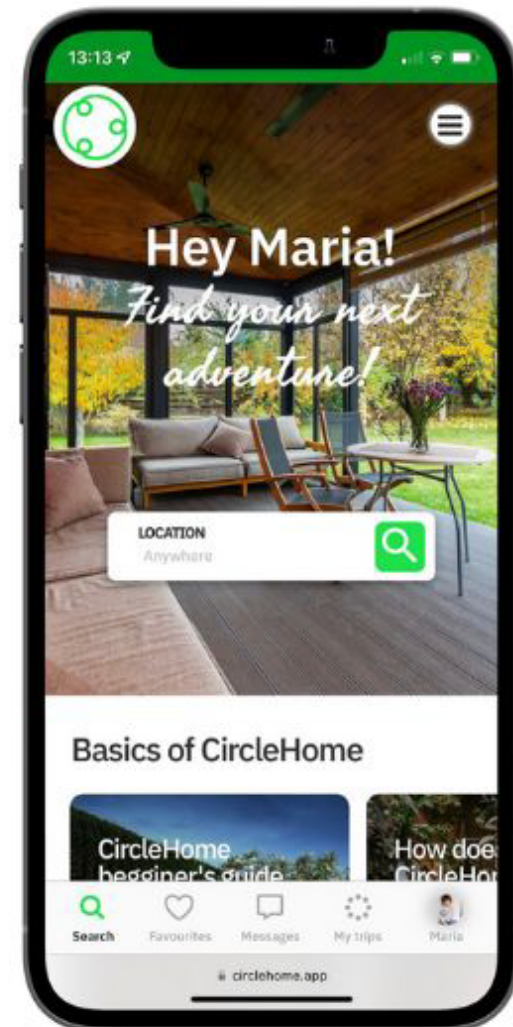

Travelling without accommodation costs allows to redesign the concept of travel. Travelling becomes the norm, not the exception.

Most secure Platform

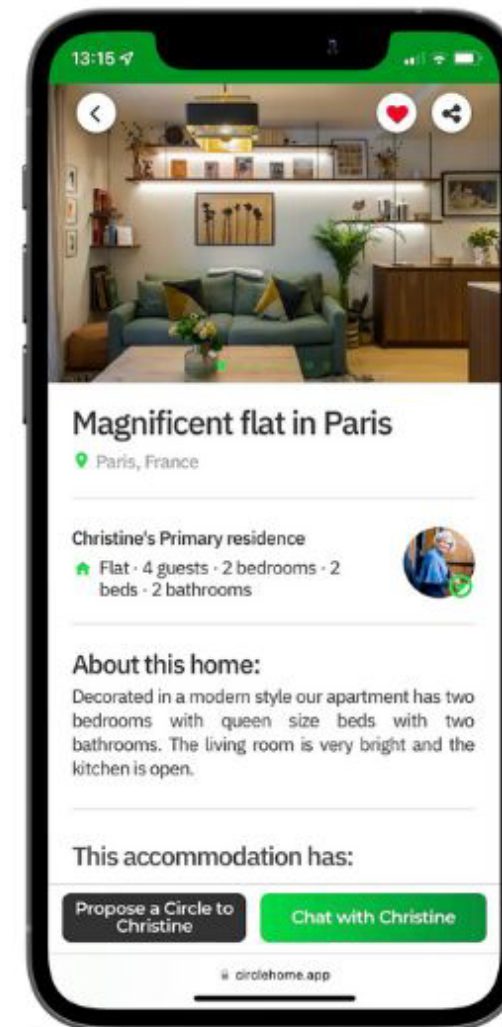

Highest level of security ever. All swaps covered up to 5M\$ + AI to scan identity of users.

Product

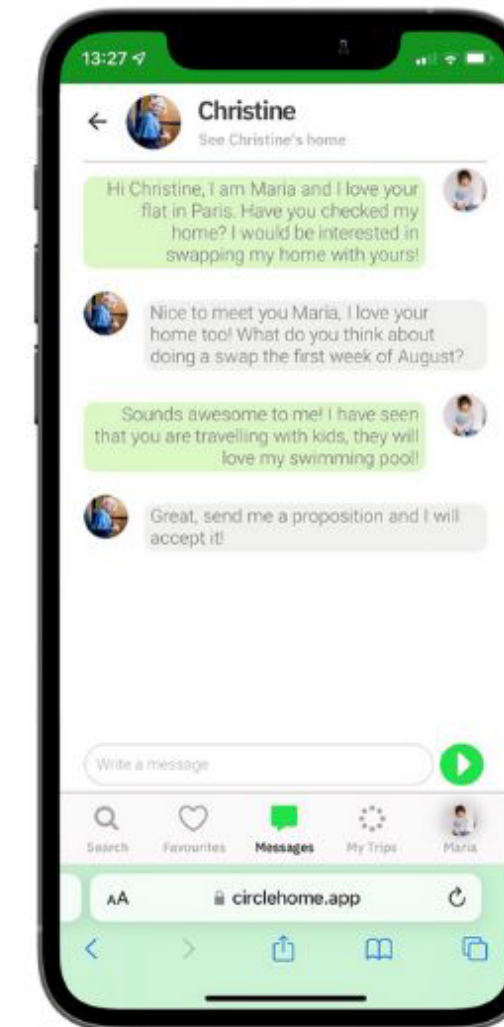

01 Onboard to the platform

Register for free and complete your profile and home.

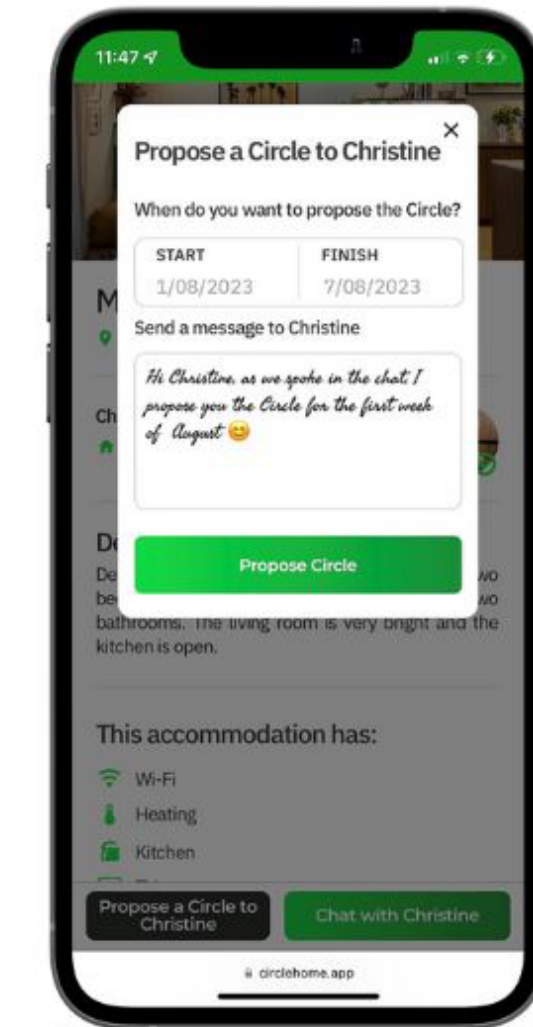

02 Search your next home

Find a place for your next adventure.

03 Chat with the owners

Chat with other homeowners.
